NOT READY

80 groups in scope · 2400 students · 71 findings (16 affecting validity)

Headline

61.4 MEAN TFI	30.7 WORST TFI	97.2% REQUIREMENTS MET	25 GROUPS AT D/E	71 FINDINGS
16 VALIDITY				

Recommendations

1. Re-mix the rooms so 60 students fit the class they are in

10 room(s) are booked over capacity for 120 classes, touching 77 group(s) and 7080 student-attendances; the worst needs 60 seats and has 25.

Do this: 120 class(es) across 10 room(s) are booked into rooms smaller than the class. Either add rooms seating at least 60 students, or move those classes into the rooms that already hold them -- TUT3, SEM2, SEM1, LAB4 and others are the ones to empty first. TUT3 alone is 460 seats short across the week.

affects 77 group(s) · 7080 student-attendances · 128.5 student-hours

 - TUT3 (25 seats): 14 class(es), largest 60 students, 460 seats short across the week
 - SEM2 (30 seats): 15 class(es), largest 60 students, 450 seats short across the week
 - SEM1 (30 seats): 14 class(es), largest 60 students, 420 seats short across the week
 - LAB4 (24 seats): 11 class(es), largest 60 students, 366 seats short across the week
 - LAB3 (24 seats): 10 class(es), largest 60 students, 360 seats short across the week
 - SEM3 (30 seats): 11 class(es), largest 60 students, 330 seats short across the week
2. Timetable the missing class for MT455

MT455 is a requirement of 20 group(s) (600 students) and no session satisfies it.

Do this: Add a session for MT455 and link the affected groups to it, or record a decision that the course does not require one. Activities: seminar. Reason recorded: no SEMINAR session of MT455 exists in the timetable

affects 20 group(s) · 600 student-attendances · 900.0 student-hours

 - seminar unsatisfied: 20 group(s) have no session: CE C1, CE C10, CE C2, CE C3, CE C4, CE C5, CE C6, CE C7, CE C8, CE C9, ST C1, ST C10, ST C2, ST C3, ST C4, ST C5, ST C6,

3. Resolve the overlapping sessions

Post-Allocating report(s) totaling 45 minutes, put 1 group(s) in two places at once.

Page of

Do this: Move one of each overlapping pair to a free period. The allocator can only avoid a clash it can see, so correct the underlying records and re-run it.

affects 1 group(s) · 30 student-attendances · 0.8 student-hours

- EE C1, 1 pair(s): EE201 Monday 16:45-17:45 overlaps CE201 17:00-18:00

4. Give the empty groups something to attend

3 group(s) have a requirement list and an empty timetable (NM C10, NM C8, NM C9).

Do this: Check whether these groups are genuinely out of the allocation scope. If they are in scope, their requirements were never timetabled; if they are not, remove them from the scope so the report stops counting them as empty.

affects 3 group(s) · 90 student-attendances · 0.0 student-hours

- NM group(s) with no sessions: NM C10, NM C8, NM C9: every session in the semester, by group link

5. Close the dead hours in the worst timetables

10 group(s) have a gap of 4 hours or more; the worst (ME C5) waits 6h 30m.

Do this: Move one session of the affected groups into the middle of the day, or accept the gap and give those groups something to do in it. A gap this long is dead time the students pay for in travel and in nothing else.

affects 10 group(s) · 300 student-attendances · 115.0 student-hours

- ME C5: 6h 30m at worst, 1050 dead of 1080.0 contact minutes
- ME C7: 6h 30m at worst, 1080 dead of 900.0 contact minutes
- CE C1: 5h at worst, 540 dead of 870.0 contact minutes
- CE C10: 5h at worst, 600 dead of 960.0 contact minutes
- CE C2: 5h at worst, 600 dead of 960.0 contact minutes
- CE C3: 5h at worst, 600 dead of 960.0 contact minutes

6. Give the worst timetables a lighter week

10 group(s) score lowest on the timetable index; 10 of them can be improved by moving into a session that already exists.

Do this: Each row lists sessions that group is already eligible for, on a day it has free, in a room that holds it. Move a group into one and its dead time drops; where no option is listed, the group has no alternative class and needs a new session rather than a different one.

Group	Why it is listed	Suggested session	When	Room
ST C4	TFI 30.7 (grade E); 240-minute gap; heaviest day Friday	CS202 lecture — lands on Monday, which the group has free	Monday 14:00-15:30	LT2
CH C5	TFI 40.6 (grade D); 300-minute gap; heaviest day Friday	CL111 seminar — lands on Monday, which the group has free	Monday 13:00-14:00	UNSIZED
CH C8	TFI 40.6 (grade D); 300-minute gap; heaviest day Friday	CL111 seminar — lands on Monday, which the group has free	Monday 13:00-14:00	UNSIZED
CH C2	TFI 42.1 (grade D); 300-minute gap; heaviest day Friday	CL111 seminar — lands on Monday, which the group has free	Monday 13:00-14:00	UNSIZED
ST C3	TFI 42.2 (grade D); 150-minute gap; heaviest day Friday	CS202 lecture — lands on Monday, which the group has free	Monday 14:00-15:30	LT2
CH C10	TFI 46.0 (grade D); 300-minute gap; heaviest day Friday	CL111 seminar — lands on Monday, which the group has free	Monday 13:00-14:00	UNSIZED
EE C1	TFI 46.0 (grade D); 165-minute gap; heaviest day Wednesday	NM202 lecture — lands on Monday, which the group has free	Monday 11:30-13:00	AUD2
CH C4	TFI 46.5 (grade D); 300-minute gap; heaviest day Friday	CL111 seminar — lands on Monday, which the group has free	Monday 13:00-14:00	UNSIZED
EE C4	TFI 48.6 (grade D); 150-minute gap; heaviest day Wednesday	NM202 lecture — lands on Monday, which the group has free	Monday 11:30-13:00	AUD2
ST C2	TFI 49.3 (grade D); 240-minute gap; heaviest day Friday	CH202 tutorial — lands on Monday, which the group has free	Monday 15:30-16:30	TUT1

7. Record the missing venue info

2 record(s) cannot be verified: sessions booked with no room, or a room with no recorded capacity, touching 2 group(s).

Do this: Correct the source records behind these 2 row(s): sessions booked with no room, or a room with no recorded capacity. Until they are recorded the audit cannot tell an over-subscribed class from an unrecorded one, and reports the room as unusable when the real fault is the record.

affects 2 group(s) · 60 student-attendances · 0.0 student-hours

- missing venue info: SC121 -- 2 group(s) attend session(s) with no room assigned, so capacity and room clashes cannot be checked.
- missing venue info: -- 1 room(s) have a capacity of 0 or no capacity recorded, so their utilisation cannot be computed.

8. Record the unverifiable workshop time

1 record(s) cannot be verified: workshops with a day but no clock time, touching 8 group(s).

Do this: Correct the source records behind these 1 row(s): workshops with a day but no clock time. Until they are recorded the audit cannot tell an over-subscribed class from an unrecorded one, and reports the room as unusable when the real fault is the record.

affects 8 group(s) · 240 student-attendances · 0.0 student-hours

- unverifiable workshop time: WORKSHOP -- 1 workshop allocation(s) name a day but no clock time, so a clash with a timetabled session cannot be confirmed.

9. Take teaching off Wednesday

Post-Wednesday day (00:00 to 23:59) - 302.4 student-hours (against 232.0 on Monday -- 28% heavier. Page of

Do this: Move about 45.8 student-hours of practical or elective work from Wednesday to Monday, and check the bands in use on Wednesday against the rooms available then.

affects 0 group(s) · 0 student-attendances · 91.5 student-hours

- Monday: 232.0 student-hours
- Tuesday: 246.0 student-hours
- Wednesday: 323.5 student-hours
- Thursday: 243.0 student-hours
- Friday: 257.0 student-hours

Finding register

Severity	Category	Finding	Groups	Students
Critical	insufficient-venue-capacity	15 class(es) in SEM2 are over capacity. The worst is 60 students in 30 seats on Monday 08:00-09:00 (200% of seats).	20	900
Critical	insufficient-venue-capacity	14 class(es) in SEM1 are over capacity. The worst is 60 students in 30 seats on Tuesday 08:00-09:00 (200% of seats).	24	840
Critical	insufficient-venue-capacity	14 class(es) in TUT3 are over capacity. The worst is 60 students in 25 seats on Wednesday 13:00-14:00 (240% of seats).	23	810
Critical	insufficient-venue-capacity	13 class(es) in STD1 are over capacity. The worst is 60 students in 35 seats on Wednesday 08:00-09:00 (171% of seats).	24	780
Critical	insufficient-venue-capacity	12 class(es) in STD2 are over capacity. The worst is 60 students in 35 seats on Tuesday 10:30-11:30 (171% of seats).	22	720
Critical	insufficient-venue-capacity	11 class(es) in SEM3 are over capacity. The worst is 60 students in 30 seats on Tuesday 08:00-09:00 (200% of seats).	20	660
Critical	insufficient-venue-capacity	11 class(es) in LAB5 are over capacity. The worst is 60 students in 36 seats on Tuesday 10:30-11:30 (167% of seats).	20	660
Critical	insufficient-venue-capacity	11 class(es) in LAB4 are over capacity. The worst is 60 students in 24 seats on Wednesday 09:00-10:30 (250% of seats).	21	630
Critical	insufficient-venue-capacity	10 class(es) in LAB3 are over capacity. The worst is 60 students in 24 seats on Wednesday 15:30-16:30 (250% of seats).	20	600
Critical	unresolved-requirement	20 groups have no seminar session for MT455.	20	600

Severity	Category	Finding	Groups	Students
Critical	insufficient-venue-capacity	9 class(es) in TUT4 are over capacity. The worst is 60 students in 25 seats on Wednesday 14:00-15:30 (240% of seats).	15	480
Critical	no-timetabled-classes	3 NM groups (are not in any session, so they have no timetable at all.	3	90
Critical	missing-venue-info	2 group(s) attend session(s) with no room assigned, so capacity and room clashes cannot be checked.	2	60
Critical	timetable-conflict	EE C1 is timetabled into 1 overlapping pair(s): EE201 Monday 16:45-17:45 overlaps CE201 17:00-18:00.	1	30
Review	unverifiable-workshop-time	1 workshop allocation(s) name a day but no clock time, so a clash with a timetabled session cannot be confirmed.	8	240
Review	friendliness-concern	CE C10 scores 52.6 (grade D); its weakest component is gaps (0.00) and its longest gap is 5h.	1	30
Review	friendliness-concern	CE C2 scores 52.6 (grade D); its weakest component is gaps (0.00) and its longest gap is 5h.	1	30
Review	friendliness-concern	CE C3 scores 52.6 (grade D); its weakest component is gaps (0.00) and its longest gap is 5h.	1	30
Review	friendliness-concern	CE C4 scores 49.4 (grade D); its weakest component is gaps (0.00) and its longest gap is 5h.	1	30
Review	friendliness-concern	CE C5 scores 52.6 (grade D); its weakest component is gaps (0.00) and its longest gap is 5h.	1	30
Review	friendliness-concern	CE C6 scores 52.6 (grade D); its weakest component is gaps (0.00) and its longest gap is 5h.	1	30
Review	friendliness-concern	CH C10 scores 46.0 (grade D); its weakest component is gaps (0.10) and its longest gap is 5h.	1	30
Review	friendliness-concern	CH C2 scores 42.1 (grade D); its weakest component is gaps (0.12) and its longest gap is 5h.	1	30
Review	friendliness-concern	CH C3 scores 54.8 (grade D); its weakest component is gaps (0.00) and its longest gap is 5h.	1	30
Review	friendliness-concern	CH C4 scores 46.5 (grade D); its weakest component is gaps (0.06) and its longest gap is 5h.	1	30
Review	friendliness-concern	CH C5 scores 40.6 (grade D); its weakest component is gaps (0.00) and its longest gap is 5h.	1	30
Review	friendliness-concern	CH C7 scores 54.8 (grade D); its weakest component is gaps (0.00) and its longest gap is 5h.	1	30
Review	friendliness-concern	CH C8 scores 40.6 (grade D); its weakest component is gaps (0.00) and its longest gap is 5h.	1	30
Review	friendliness-concern	EE C1 scores 46.0 (grade D); its weakest component is gaps (0.22).	1	30
Review	friendliness-concern	EE C10 scores 51.2 (grade D); its weakest component is continuity (0.33).	1	30
Review	friendliness-concern	EE C2 scores 52.4 (grade D); its weakest component is continuity (0.33).	1	30
Review	friendliness-concern	EE C4 scores 48.6 (grade D); its weakest component is continuity (0.33).	1	30
Review	friendliness-concern	EE C5 scores 51.2 (grade D); its weakest component is continuity (0.33).	1	30
Review	friendliness-concern	EE C6 scores 49.7 (grade D); its weakest component is continuity (0.33).	1	30

Severity	Category	Finding	Groups	Students
Review	friendliness-concern	EE C7 scores 52.4 (grade D); its weakest component is continuity (0.33).	1	30
Review	friendliness-concern	EE C8 scores 52.4 (grade D); its weakest component is continuity (0.33).	1	30
Review	friendliness-concern	EE C9 scores 51.2 (grade D); its weakest component is continuity (0.33).	1	30
Review	friendliness-concern	ST C2 scores 49.3 (grade D); its weakest component is gaps (0.00) and its longest gap is 4h.	1	30
Review	friendliness-concern	ST C3 scores 42.2 (grade D); its weakest component is continuity (0.00).	1	30
Review	friendliness-concern	ST C4 scores 30.7 (grade E); its weakest component is gaps (0.00) and its longest gap is 4h.	1	30
Review	unconfigured-requirements	1 course(s) in this timetable have no required-activity configuration, so nothing was allocated for them.	10	0
Review	missing-venue-info	1 room(s) have a capacity of 0 or no capacity recorded, so their utilisation cannot be computed.	0	0
Watch	friendliness-concern	AR C1 scores 68.0 (grade C); its weakest component is gaps (0.25).	1	30
Watch	friendliness-concern	AR C10 scores 58.9 (grade C); its weakest component is gaps (0.08).	1	30
Watch	friendliness-concern	AR C2 scores 58.9 (grade C); its weakest component is gaps (0.08).	1	30
Watch	friendliness-concern	AR C3 scores 62.4 (grade C); its weakest component is gaps (0.25).	1	30
Watch	friendliness-concern	AR C4 scores 63.9 (grade C); its weakest component is gaps (0.25).	1	30
Watch	friendliness-concern	AR C5 scores 68.0 (grade C); its weakest component is gaps (0.25).	1	30
Watch	friendliness-concern	AR C6 scores 63.7 (grade C); its weakest component is gaps (0.08).	1	30
Watch	friendliness-concern	AR C7 scores 63.7 (grade C); its weakest component is gaps (0.08).	1	30
Watch	friendliness-concern	AR C8 scores 58.9 (grade C); its weakest component is gaps (0.08).	1	30
Watch	friendliness-concern	CE C1 scores 59.5 (grade C); its weakest component is gaps (0.00) and its longest gap is 5h.	1	30
Watch	friendliness-concern	CE C7 scores 66.1 (grade C); its weakest component is gaps (0.00) and its longest gap is 5h.	1	30
Watch	friendliness-concern	CE C8 scores 66.1 (grade C); its weakest component is gaps (0.00) and its longest gap is 5h.	1	30
Watch	friendliness-concern	CE C9 scores 66.1 (grade C); its weakest component is gaps (0.00) and its longest gap is 5h.	1	30
Watch	friendliness-concern	CH C1 scores 59.9 (grade C); its weakest component is gaps (0.25).	1	30
Watch	friendliness-concern	CH C9 scores 57.3 (grade C); its weakest component is gaps (0.00) and its longest gap is 5h.	1	30
Watch	friendliness-concern	CS C4 scores 65.1 (grade C); its weakest component is gaps (0.25).	1	30
Watch	friendliness-concern	ME C1 scores 62.6 (grade C); its weakest component is gaps (0.00) and its longest gap is 5h.	1	30
Watch	friendliness-concern	ME C10 scores 62.6 (grade C); its weakest component is gaps (0.00) and its longest gap is 5h.	1	30

Severity	Category	Finding	Groups	Students
Watch	friendliness-concern	ME C2 scores 64.5 (grade C); its weakest component is gaps (0.00) and its longest gap is 5h.	1	30
Watch	friendliness-concern	ME C3 scores 62.1 (grade C); its weakest component is gaps (0.00) and its longest gap is 5h.	1	30
Watch	friendliness-concern	ME C4 scores 62.6 (grade C); its weakest component is gaps (0.00) and its longest gap is 5h.	1	30
Watch	friendliness-concern	ME C5 scores 61.4 (grade C); its weakest component is gaps (0.00) and its longest gap is 6h 30m.	1	30
Watch	friendliness-concern	ME C6 scores 62.6 (grade C); its weakest component is gaps (0.00) and its longest gap is 5h.	1	30
Watch	friendliness-concern	ME C7 scores 62.1 (grade C); its weakest component is gaps (0.00) and its longest gap is 6h 30m.	1	30
Watch	friendliness-concern	ME C8 scores 64.5 (grade C); its weakest component is gaps (0.00) and its longest gap is 5h.	1	30
Watch	friendliness-concern	ME C9 scores 64.3 (grade C); its weakest component is gaps (0.00) and its longest gap is 5h.	1	30
Watch	friendliness-concern	NM C4 scores 94.6 (grade A); its weakest component is continuity (0.83).	1	30
Watch	friendliness-concern	ST C1 scores 58.2 (grade C); its weakest component is gaps (0.00) and its longest gap is 4h.	1	30
Watch	friendliness-concern	ST C7 scores 71.2 (grade B); its weakest component is gaps (0.25).	1	30

Observations

- venue LAB4, course CS201, activity practical: 60 students into 24 seats (2.5x over)
- venue LAB3, course EE203, activity practical: 60 students into 24 seats (2.5x over)
- venue LAB4, course MT171, activity tutorial: 60 students into 24 seats (2.5x over)
- venue LAB4, course ME102, activity practical: 60 students into 24 seats (2.5x over)
- venue LAB3, course NM201, activity practical: 60 students into 24 seats (2.5x over)
